## A Medicare Supplement insurance policy helps you manage your health care expenses.

## **Fill the gaps**

Medicare provides beneficial coverage for healthrelated expenses, but it does not cover all health care expenses. There are a number of gaps in Medicare coverage that you need to pay for outof-pocket or with private insurance. A Medicare Supplement plan is a health insurance policy (also called Medigap) sold by a private insurance company to help fill in some of those gaps.

## Take care of yourself

A Medicare Supplement plan helps you manage and budget your health care expenses with predictability and stability. A Medicare Supplement plan helps pay some of the out-of-pocket costs for Medicare-approved services and works with Medicare to provide more coverage to you.

## Feel good about your choices

A Medicare Supplement plan has no restrictive networks. You can visit the providers of your choice, including primary care physicians, specialists, and hospitals, that accept Medicare patients.

Most providers are paid automatically so you won't have to worry about filing a claim.

### Know your options

Although private insurance companies offer Medicare Supplement coverage, Medicare Supplement insurance plans are strictly regulated by both federal and state government.

It's important to make an informed decision about what's right for you. Before you apply for a plan, get to know what the coverage includes. Then choose a Medicare Supplement plan that best fits your needs.

# **Choose from these plans**

Aflac offers Medicare Supplement plans A, G and N with varying amounts of coverage: Plan A providing basic benefits and Plan G providing more comprehensive coverage. For people first eligible for Medicare prior to January 1, 2020, Aflac also offers Plan F.

Premiums also vary according to the amount of coverage provided by each plan. A household premium discount is available for eligible applicants — reference the outline of coverage for details. Here are benefits that are included in each plan:

# What's great about the plans

#### Go directly to your doctors

No pre-certification or pre-authorization is needed for care. You may visit any provider that accepts Medicare. A physician referral may be required for specialist, diagnostic, laboratory, or other facility care.

#### Benefits stay the same

You always know what your benefits are with these standardized plans — plan benefits remain the same year after year.

#### Portable coverage

You are not restricted to the use of a network of health care providers. If you move or travel, your coverage goes with you.

#### 12-month rate guarantee

No rate increases for the first 12 months.

#### **Guaranteed renewable**

No worries of reduced benefits or canceled coverage for the life of the policy, as long as the premiums are paid. The premiums for the policy will change. A premium change can occur on any policy renewal date if a new table of rates is applicable to the policy. However, such premium change cannot be made unless we make the same change to all policies of the form issued to persons of the same classification living in the same geographic area of your state. A premium change can occur if you move to another area within the State of Florida; however, if you move out of state, your premiums will continue to be based on state of issue and your last location in Florida.

#### 30-day free look

Return any policy for any reason within 30 days after receipt for a full refund of all premiums paid.
